

2020 Section on Advances in Therapeutics and Technology (SOATT) Program

Date: The Section on Advances in Therapeutics and Technology (SOATT) Program will be held on Monday, October 5, 2020 from 2:00 PM to 3:30 PM. (Room location TBD)

Topics: Any aspect of children's health promotion. Research abstracts may cover such diverse topics as clinical trials/regulatory FDA approved studies of vaccines/drugs/devices, public policy and law related to drug and device development, utility of device/technology use in pediatric office settings, use of electronic devices for information sharing with patients and families, and quality improvement projects.

Submission Types: Case Report, Original Research, or Quality Improvement.

Presentation Formats: Poster Only (Corporate employees with a conflict of interest cannot present posters)

Internal Review Board: Prior IRB approval will be required for submissions involving human subjects research.

Prior Publication: Abstracts can be previously presented but they cannot be previously published.

Awards: Top 3 Posters.

Sponsorship: Submitters will NOT need a sponsor.

Review: We highly recommend that new authors submitting abstracts use a reference such as "Essentials of Writing Biomedical Research Papers" by Mimi Zeiger McGraw Hill 2nd Ed. 2000. Abstracts will be reviewed for scientific rigor, clarity, completeness and for whether there are sufficient data to support claim in title and to substantiate the conclusion. The importance and quality of the abstract will be assessed based on the potential impact on making a diagnosis, improving treatment, and predicting or improving outcomes, on advancing the understanding of a disease or condition, and on adding new knowledge to a field of study.

The following will be a basis for rejection: submissions on research that is already published, same research project subdivided into several abstracts, submissions that do not include original data, description of research without results, case reports that do not present new information, clinical or animal research that have not been IRB or IACUC approved.

Questions: For questions about abstract submission guidelines, contact Jackie Burke at jburke@aap.org.

If your abstract is accepted for presentation and you or co-author(s) are not attending the NCE meeting, you should notify Ron Ariagno at rla@stanford.edu as soon as possible.

Withdrawal:

To withdraw your abstract, email your request to abstracts@aap.org no later than August 21, 2020.
