

Conflicts of Interest Disclosure and Resolution Policy for Abstract Presentations

Disclosure of Financial Relationships and Resolution of Conflicts of Interest

In accordance with the AAP Policy on Disclosure of Financial Relationships and Resolution of Conflicts of Interest for AAP CME Activities, all authors, abstract chairs, and reviewers must disclose:

- **Financial Relationships** (within 12 months of submitting the disclosure information), and
- **Discussion of Off-label (Unapproved)/Investigational Uses of Products.**

An author, chair or reviewer disclosure is to be relevant and specific to the content of his/her abstract presentation or program. If the potential conflict of interest relates to other content that will not be discussed in the abstract presentation or program, they do not need to disclose those relationships.

Employee Relationships with ACCME-defined Commercial Interests and Presentation Restrictions

Definition: As defined by the Accreditation Council for CME (ACCME), a commercial interest is any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients.

Oral Presentations (designated for AMA PRA Category 1 Credit™): An employee of an ACCME-defined commercial interest is prohibited from being an author or presenter of an abstract. If an abstract author discloses an employee relationship with an ACCME-defined commercial interest, the abstract will be removed from consideration as an oral abstract presentation.

Poster Presentations (not designated for AMA PRA Category 1 Credit™): An employee of an ACCME-defined commercial interest may be an author or presenter if the individual's involvement in the abstract submission and content clearly relates to discovery and/or research, not the product/business lines of an ACCME-defined commercial interest.

Disclosure Review/Conflict of Interest Resolution and Abstract Selection Process

All disclosed financial relationships of Abstract Chairs, Abstract Reviewers and Authors will be reviewed by the AAP Senior Vice President of Education.

Abstracts will be peer-reviewed and selected by representatives of the program under which the abstract is submitted.

All disclosed financial relationships of Abstract Chairs, Abstracts Reviewers and Authors will be disclosed to learners of the National Conference.

Oral Presentations Disclosure Resolution (designated for *AMA PRA Category 1 Credit™*): Financial relationships disclosed by authors/presenters of oral abstracts will be reviewed and resolved prior to presentation and then disclosed to learners.

- If AAP Senior Vice President of Education determines that there is no conflict of interest, the abstract may be confirmed for oral presentation.
- If AAP Senior Vice President of Education determines there is a conflict of interest, the program Abstract Chair will determine if the abstract should be either 1) presented as a poster, or 2) rejected.

Poster Presentations Disclosure Resolution: Since these are not designated for *AMA PRA Category 1 Credit™*, financial relationships disclosed by authors/presenters of posters do not need to be resolved prior to presentation, except as it relates to the above restrictions regarding Employee Relationships with ACCME-defined Commercial Interests.

- Poster presenters must list their financial relationships on their posters.

Compliance with ACCME Guidelines and AAP Policy Highlights

The *AAP Policy on Disclosure of Financial Relationships and Resolution of Conflicts of Interest* is designed to ensure quality, objective, balanced, and scientifically rigorous AAP CME activities. All individuals in a position to influence and/or control the content of AAP CME activities are required to disclose to the AAP and subsequently to learners that they either have no relevant financial relationships or any financial relationships with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services discussed in CME activities. All potential conflicts of interest are identified and resolved prior to an individual's confirmation of service at an AAP CME activity. Beyond disclosure of financial relationships, AAP CME faculty are required to disclose to the AAP and to learners when they plan to discuss or demonstrate pharmaceuticals and/or medical devices and/or medical or surgical procedures that involve "off-label" use of a device or pharmaceutical. The AAP is committed to providing learners with commercially unbiased CME activities.
